

NADC PTAC's Mission

The NADC PTACs' mission is to maximize the number of capable U.S. companies participating in the government marketplace by providing businesses nationwide with an understanding of the requirements of government contracting and the marketing know-how they need to obtain and successfully perform federal, state, and local government contracts, and supporting government agencies in reaching and working with the suppliers they need.

NADC PTAC Goals

To provide contract identification and procurement assistance to Native American businesses in the Rocky Mountain and Great Plains Regions of the Bureau of Indian Affairs service areas. To improve local economies by helping Native American businesses successfully compete for government contracts, thereby creating and retaining jobs and bringing other economic benefits to states and local communities.
